

A complete sky, made for one person.

Aurora Vale is a fictional fixture. No customer data appears here.

VALUE MAP

- 01 Personal reading**
A designed narrative grounded in computed positions.
- 02 Print pack**
A3, A4 and screen-ready chart formats.
- 03 Observatory still**
A clearly labelled SCHEMATIC 3D view.

DIGITAL COMMISSION No physical item. Final work is made from the chart subject's own submitted details.

Two ways to live with the same sky.

Aurora Vale - reading context and print geometry from one fictional computation.

READING EXCERPT

A birth chart is a map of positions, not a prediction machine.

The reading translates those positions into calm, human language:

patterns to notice, questions to hold, and a moment worth keeping.

PRINT EXCERPT

The chart plate preserves the computed wheel. Layout changes never redraw it.

Included formats are designed for screen display and ordinary home printing.

A gift with their name on it.

Aurora Vale - FICTIONAL SAMPLE birthday presentation.

A BIRTHDAY SKY FOR

AURORA

WITH LOVE FROM SAM

PERSONALISED, NOT PRE-FILLED

The adult recipient provides their own birth details and consent before production.

A gift message and from-name personalise the presentation, not the astronomy.

A cinematic view, honestly labelled.

Aurora Vale - FICTIONAL SAMPLE generated from the same chart fixture.

SCHEMATIC 3D STILL

WHAT THIS IS

A designed Observatory view derived from computed positions for the Whole Sky Edition.

It is schematic, not a live telescope image, photograph or literal scale model.

The label stays with the artwork so the presentation never outruns the truth.

NOT A PHOTOGRAPH - NOT A LITERAL SCALE MODEL
